

KBX Training Kettlebells

KBX(size) Training Kettlebells

Body-Solid Tools KBX Training Kettlebells are built with durability and performance in mind and feature a matte black chip-resistant powder-coated finish providing superior grip during strenuous workouts. In addition, Body-Solid Tools KBX Training Kettlebells are manufactured with a state-of-the-art single-cast gravity casting process offering much higher quality than competitive sand-casted kettlebells. This gravity casting process guarantees that each kettlebell is constructed to meet the highest standards including a flat, wobble-free base, smooth and easy-to-grip handles as well as a consistent overall finish. Each KBX Training Kettlebell has a stylish embossed logo and easy-to-read weight distinction in both kg and lb to ensure you grab the right kettlebell each time.

Special Features

- Matte black chip-resistant finish
- Single-cast gravity casting
